

Heart Wisdom:

Nutritional Support for the Cardiovascular system

Nutritional support for the cardiovascular system. Recent breakthroughs in formulation and stabilization now allow us to use EDTA, one of the most powerful chelating agents, heretofore only available as an intravenous infusion. Heart Wisdom represents the very latest in both science and formulation technology for full cardiovascular support.

Excerpted from a lecture by K. Steven Whiting Ph.D., Director, Institute of Nutritional Science. Reproduced by permission.

In spite of dozens of drugs, in many categories, strict dietary procedures, which obviously don't work, and invasive surgical operations, heart disease remains the number one cause of death in America and in fact, in all industrialized nations around the world.

While the medical and dietetics industry continues to blame cholesterol as the cause of heart disease, there remains NO clinical evidence which shows that cholesterol has ever actually caused a single case of heart disease!

Here at our Institute, we have recently developed an accelerated method of orally removing these potentially deadly deposits on the artery walls both safely and effectively.

This new formulation reduces the response time from six to nine months, as with older chelation formulas to just three to four months, less than half! This means that oral chelation is now a viable alternative to many other invasive forms of therapy and management for tens of thousands of heart disease patients who previously, could not wait the longer length of time that it took for

oral formulations to begin to take effect. We are extremely proud of this advancement in formulation and the technology used to make it possible.

Capsules Per Container: 180
Serving Size 6 Capsules
Amount per 6 capsules:	% Daily Value
Vitamin C (as calcium ascorbate)	1,200	mg	2000%
Vitamin E (as d-alpha tocopherol)	200	IU	690%
Niacin (as nicotinic acid)	50	gm	250%
Vitamin B6 (as pyridoxine hydrochloride)	25	mg	1500%
Folate (as folic acid)	800	mcg	200%
Vitamin B12 (as cyanocobalamin)	600	mcg	10,000%
Calcium (as carbonate chelate)	300	mg	30%
Magnesium (as magnesium oxide)	300	mg	75%
Choline (as choline bitartrate)	450	mg	*
Cysteine (as L-cysteine monohydrate HCl)	450	mg	*
Taurine (as L-Taurine)	200	mg	*
Ginko Bilboa (leaves)	30	mg	*
Carnitine (as L-carnitine hydrochloride)	100	mg	*
Dimethylglycine	50	mg	*
Coenzyme Q10	20	mg	*
EDTA (as disodium EDTA)	400	mg	*

* Daily value not established.

Other ingredients: Gelatin, Water

Suggested Use: Adults take 2 capsules three times daily or as directed by your health care practitioner. For Maximum results this product should be taken with our LiquiDaily Supreme & the LiquiDaily Essential Trace Minerals

For best results, we suggest using this product in conjunction with a Full Spectrum Liquid nutritional supplement. Doing so will provide you body with the broad spectrum of nutritional support it needs every day. Consult your retailer for further details and recommendations
